AI-Powered Transcription

Technology + Human Oversight for Cost Efficiency

[BOOK AI-POWERED TRANSCRIPTION](#)

[LEARN MORE](#)

- Reporter-level accuracy through AI advanced transcription and two levels of human review
- A cost-effective alternative to traditional court reporting
- Faster transcript delivery

AI-Powered Transcription technology is revolutionizing the way transcription is done. It uses powerful AI legal speech recognition and is human-edited in the background, providing results comparable to the best human stenographers. Cut your court reporting costs—without sacrificing accuracy. AI-Powered Transcription is compatible with remote, in-person, and hybrid proceedings.
